This agenda does not have the Webinar ID Perhaps pointing out that it is available at our website is sufficient. This is a special meeting so only a 24 hour notice is required.

CANCEL LHNC PLUC Meeting Wednesday August 19th

Hello,

Because the main Motion on 141 Ave 34, DIR-2019-6048-TOC-SPR-WDI was paused by the City Planning Commission hearing Thursday, it is necessary to CANCEL this meeting and allow for full assessment of the project. We need to see responses from Community Outreach efforts and how they affect the resolutions to the concerns of our community.

We will make every effort that this pause and subsequent outreach efforts reflect the wishes of vetted stakeholders who live within 500 feet of the proposed project. Any such outreach meetings will not be part of the PLUC process. The votes, the Official Acts of the Planning and Land Use Committee, are independent of any such process and so we are awaiting the results of the outreach effort by the developer.

At an appropriate future date, we will publish an Agenda and complete the process to Approve or Deny the project. Currently the project is Tabled until further notice.

Thank you for your patience.

Sincerely,

Richard W Larsen

It's just a place holder. All the doc info is there for stakeholders. We'll have the zoom info as soon as the Host provides it.

BUT

We still need to have this available for the meeting. Unless we want the same result. I fear the lawyer making the point we didn't even have his documents. That's a legal argument with weight

Tameka has to get a meeting ID then ASAP I don't think it's a good idea to physically post the agenda without it

Thank you Gil, but not in this case. Currently there are over 3000 of our community that want to know what we are doing about this. The Councilman has weighed in. You want me to wait posting about that? This is no longer a secret, while I appreciate your observation that we don't have a 72 hour obligation to post a Special meeting, this Motion is already in the press.

Waiting a short 24 hours would be a disservice to them. There are over 721 MB of content. Can you look through that in a few hours?

That's a rhetorical question of course.
